

POULTRY SHOW TO OPEN TOMORROW

Twenty-sixth Annual Exhibition Promises to Establish a Record.
ENTRY LIST IS LARGE
Use of New Coops Will Make the Display More Interesting.

The twenty-sixth annual exhibition of the Utah Poultry association, which will be opened at 27 East First South street Monday, January 12, is expected to display the largest and finest array of blooded fowls in the history of the organization. The entry list, which is now larger than that of last year, will close at 9 o'clock Monday morning, and the show will formally open an hour later, and will continue through the week. The scoring will begin Monday afternoon with Dan Duncan of Salt Lake, first vice president of the Utah Poultry association, as judge.

This exhibition should not be confused with that of the State Poultry association of Utah, which will be held during the "Roundup" at Logan. The Utah Poultry association is a local organization, its members coming from Salt Lake and immediate vicinity.

Feature of the Show.

One of the features of the local exhibition will be the new coops of uniform size and color, displaying only one bird in each pen. This is the first time this plan has been used by the association, and as far as is known, the first time in the city. No birds will be displayed in groups except for educational purposes.

One or more members of the association will be at the exhibition during all open hours to conduct visitors through and offer explanations on the scientific details of poultry raising and any other information concerning the exhibits.

For many years past it has been the custom to bring prominent poultrymen from the east to score the fowls during the exhibitions in order to get some idea of how Utah birds classed with those in the east. Practically every eastern judge has declared that there are no birds in the country superior to those in Utah, but the local poultrymen have not yet learned to prepare them for exhibition. With this information to work on the members of the local association have made a better showing each year and it was decided to have a local expert score the birds during the exhibition this year.

Prizes Are Offered.

The regular monthly meeting of the Utah Poultry association, which was to have been held last Thursday night, was postponed a week in order to give those attending the show a chance to be present. The meeting will be held in the Commercial club Thursday night, and will be addressed by some of the most prominent poultrymen of Logan, Ogden, Salt Lake and other poultry-growing centers of the state.

The following prizes are offered by the Utah Poultry association: For the first pen in each variety, \$5; second pen in each variety, \$2; third pen in each variety, \$1; fourth pen in each variety, 50 cents; to the exhibitor having the largest number of birds of one variety scoring 91 points or better, \$5; to the second largest, \$2.50; for the first cockerel mating pen in a variety, \$5; for the second, \$2.50, and similar prizes in pullet mating; for the highest combined score of cock, cockerel, hen, pullet and pen, a cup. This cup after being won twice by the same party becomes his or her property. It was won by Wheeler brothers in 1910, by Thomas Freeman in 1911, by S. A. Ellsworth in 1912 and by A. P. Stone in 1913.

There will also be an egg exhibit, in which cash prizes and ribbons are offered for the best scored eggs, in dozens lots, of all different varieties of chickens.

In addition to the prizes offered by the association, there are many special prizes offered by the American Poultry association, the various newspapers, business houses and poultry raisers of Salt Lake and vicinity.

Recorder Files Report.

Noble Warrum, city recorder, yesterday filed in his own office his annual report, showing city expenditures during the year. It shows that a total of 1370 petitions were received and 232 reported acted upon by the city commission during the year.

The commission considered 155 bills for ordinances, of which 146 were passed, five were filed and the remainder failed of passage.

New System of Fat Reduction

Here's a new way for all fat people to laugh together at the old bugaboo—Obesity. The saying that "there is no such thing as a free lunch" now applies to fat people any more. Here is something new for them—a new sensation, a new way to get rid of their fat. It is a new, easy, safe, and effective way, easily found by anyone who is passing beyond the limits of slimness. Everyone has heard of the Marmola Prescription. Now, from the same high authority, there comes another idea—the idea of condensing these same pure, harmless ingredients into a pleasant, palatable, and effective form. Taken at bed-time, they help the stomach to dispose of all the fatty foods, converting them into compact, solid flesh, muscle and energy, without dieting or exercise. Marmola Prescription Tablets regulate the entire system—do for you what body-cure and self-denial cannot do, and the fat, once routed, is gone for good. You can prove all this at a trifling cost. Marmola Prescription Tablets are sold by all druggists or sent postpaid by the Marmola Co., Farmer Bldg., Detroit, Mich. A large case—sufficient to bring lasting results—is but 75c.

BOY TELEPHONES BURGLAR ALARM
A false alarm of burglary was responded to by the police yesterday when a small boy living at the Virginia apartments at 420 East South Temple street, telephoned that three men whom he thought were of suspicious character, approached the house. "One man is masked with a red handkerchief," he told the desk sergeant, "and they are trying to enter the cellar."

When four policemen arrived in the patrol wagon on the scene they found the men had been sent for by the manager of the Virginia apartments to do some work about the house. One of the men had a red bandanna handkerchief wrapped loosely about his throat. The men had been sent from the Salvation Army.

SHERIFF WILL KILL TO PRESERVE ORDER
TACOMA, Wash., Jan. 10.—In a statement of his efforts in enforcing order in connection with the strike at the Tacoma smelter, Sheriff Jamieson refused today the request of a committee from the Central Labor council that he appoint union labor men as deputies. The statement says: "Threats of recall have no terrors for me. If the people of Pierce county do not want the law enforced and are willing to have 150 aliens, just over from the Balkan wars, intimidate the wives and children of 45,000 English-speaking citizens of Pierce county, I do not want to be sheriff. "I will maintain order and protect life and property if I have to kill every disorderly man and criminal in Pierce county to accomplish that end." The situation at the smelter was quiet today and the plant was running as usual.

STOPS TOBACCO HABIT IN ONE DAY
Sanitarium Publishes Free Book Showing How Tobacco Habit Can Be Banished in From One to Five Days at Home.

NEW YORK, Jan. 10.—A fine of \$500 was imposed on the James Van Dyk company, egg dealers, on their plea of guilty to selling cold storage eggs as fresh. It is the first conviction of its kind in this state. The action was brought by the state department of health which has been conducting a crusade against the practice of misrepresenting cold storage products.

GRIEF FOR HUSBAND TAKES AWAY REASON
A pathetic coincidence was recorded in the district court yesterday when Judge M. L. Ritchie committed Mrs. Frank B. McCormick to the state mental hospital. The woman's husband died at the same institution last Wednesday.

Mrs. McCormick was brought here from Twin Falls, Idaho, by a deputy sheriff, who turned her over to the sheriff's office. She was taken into court on an insanity charge and it was shown that her mental derangement was due largely to grieving over her husband's commitment to the asylum. She had not been informed of her husband's death, and to every question put to her in court yesterday her only answer was that she had come to find her husband.

The Elders Sanitarium, located at 1609 Main street, St. Joseph, Mo., has published a free book showing the deadly effect of the tobacco habit, and how it can be banished in from one to five days at home.

Men who have used tobacco for more than fifty years have tried this method and say it is entirely successful, and in addition to banishing the desire for tobacco, has improved their health wonderfully. This method banishes the desire for tobacco, no matter whether it is smoking, chewing, cigars, or snuff dipping.
